InFocus®

meeting room projectors

LP®240/LP®250

The highest performers in their class.

EXPERIENCE THE VALUE OF PROJECTION	A more efficient way to communicate and collaborate in any presentation or meeting
GREAT RETURN ON INVESTMENT	The projector pays for itself in less than one year
VERSATILE	Carry your projector from room to room, put it on a cart or mount it on the ceiling
ABUNDANT SOURCES	Plug into your computer, VCR, DVD, digital camera or PC for big screen Internet, films, slide shows or PowerPoint presentations
ACTIVE MONITOR LOOP-THROUGH	View your computer monitor even when the projector is off
FLEXIBLE IMAGE PLACEMENT	Even in small classrooms or meeting rooms, images fit the screen perfectly from virtually anywhere the projector is located

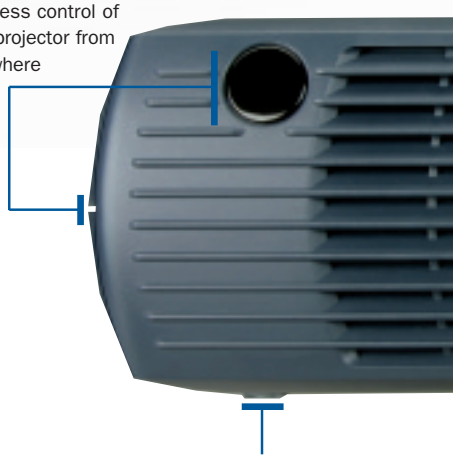
PRESENTATIONS THAT PERSUADE

Your brilliant ideas already hold the attention of your audience or students. But imagine what you could do with images, colour, sound and the ability to show movies or view information on the Internet live to support your message. When you present with an InFocus LP240 or LP250 projector, the possibilities are endless. You can persuade and convince people with a variety of multimedia content. Information retention is higher and collaboration is immediate—people are inspired to participate. The LP240 and LP250 also make small group meetings more efficient—instead of scribbling notes on the whiteboard, you can brainstorm and capture ideas or complete spreadsheets in real time.

EASY, INTUITIVE, INFOCUS

InFocus projectors add value to your presentation without adding inconvenience. At only 5.7 lbs./2.6 kg, the LP240 and LP250 have a new design that revolutionises ease of use. Set-up and control of the projector are right at your fingertips. Colour-coded connectors and cables enable you to plug the projector into your computer or video source in seconds. The intuitive keypad on top of the projector provides many quick and easy adjustments at the touch of a button with user-friendly menus that pop up on the screen telling you exactly what to do next. You just scroll and select. At only 5.7 lbs./2.6 kg the LP240 and LP250 can be easily carted or carried from room to room. An optional security lock reduces the risk of theft. They can also be ceiling or table-mounted for flexible meeting room configurations – all-around, all-purpose projectors. As a valuable business tool and a shared resource, the LP240 and LP250 are an investment you won't want to live without.



CONTROL YOUR PROJECTOR FROM YOUR PC

ProjectorManager™ software allows you to quickly and easily operate your projector from your computer. Make adjustments to the projected image or change settings without using a remote. When you want to make a minor change to your presentation before showing it to your audience, ProjectorManager enables you to change to your content while the image on the

screen remains frozen. If you need a little extra help, you can discreetly troubleshoot or even send an e-mail to InFocus Technical Support over the network – no need to look up phone numbers. No matter what comes your way, InFocus makes it easy to stay cool and collected during your presentation.

OUTSTANDING PERFORMANCE, RIGHT PRICE

The LP240 and LP250 provide best-in-class performance at a price that won't blow your budget. Connect your projector to a VCR or a DVD player and show movies. Add the Internet to your presentations and refer to information on the Web live on the big screen. You can even connect easily to a digital camera for a larger-than-life slideshow. No matter what you want to project, the LP240 and LP250 make it easy. And active monitor loop-through means you don't have to unhook the projector when it's not in use to view your computer monitor. A zoom lens allows you to easily adjust the size of your image to fit the big screen in your office or classroom, or a small wall at home. And with picture-in-picture video and one-touch magnify/zoom, you can view a movie or animated file without switching from presentation mode, or highlight key areas of the screen for added emphasis. With features like this, everyone will want the LP240 and LP250 – reserve yours now!
